

Revised Operational COVID Guidelines for Attractions, Destinations & Tourism

This guidance is intended to assist Calvert County residents, business owners, workers and visitors at this moment in time. Our guiding principles are as follows:

Marylanders should continue to practice physical distancing.

Marylanders should continue to wear face coverings or masks in indoor public places, and outdoors when physical distancing is not possible.

As vaccines become available, every eligible person should get inoculated to speed our community's return to normal.

It is important that all of our actions in the near future are consistent with these guiding principles:

- » All staff and volunteers are aware of the face covering requirements and how to properly wear a face covering (covers both mouth and nose).
- » Customers and visitors over the age of 5 must wear a face covering.
- » Proper signage for social distancing, face coverings, and hand washing requirements are provided at each entry point for this event/location. Signage is posted as friendly reminders throughout the location.
- » For indoor and outdoor venues, total occupancy load shall not exceed 50% of the facility's maximum occupancy.
- » Develop management and employee procedures to ensure safe distancing of customers lining up outside the entrance or on facility grounds. There should be at least 6 feet between individuals.
- » The required EPA registered disinfectants are available to the staff. Gloves are readily available for the assigned staff member that will be cleaning high contact surfaces.
- » Hand sanitizing stations are provided to guests and staff at each entry and exit point or hand washing stations are readily available and stocked for guests and staff.
- » Consideration should be made to offer classes online or through a virtual classroom. If this isn't possible then in-person classes must adhere to proper distancing of at least 6-feet between attendees and masks must be worn at all times.
- » Business owner is responsible for notifying all vendors of new guidelines relating to COVID-19.
- » An employee wellness check is in place for staff and volunteers. The records will be maintained in a safe place for 30 days.

**Requirements may change at any point contingent on health necessities or new directives from the Governor's Office.*
